

EMod / DuctDesigner Installation Guide

1 Prerequisites

In order to run EMod and DuctDesigner, a Java Run Time Environment (JRE) is required to be installed on the target machine.

2 Software Download

The EMod and DuctDesigner can be obtained from the [Züst Engineering Software Download](#). Select the required software – EMod or DuctDesigner; old versions can be downloaded if required.

3 Unpacking

Create a new folder at a location of your preference and unpack the downloaded zip-file with an appropriate software into the newly created folder.

4 License installation

Copy the obtained license file (license.lic) into the newly created folder. License files can be requested by [E-Mail](#).

5 Start-up

To start EMod or DuctDesigner, double click on EMod.jar or DuctDesigner.jar respectively.

Once the GUI is open, the help topics can be addressed using the corresponding menu item.
